

Faxed Lab Summary - Citation Contract Fixture

Synthetic demo report with intentionally weak source metadata

Unverified Lab Fax Clipping

This fixture intentionally lacks a reliable accession number, source locator, and result-row locator. It is designed to test whether the app blocks trusted use when extracted values cannot satisfy the citation contract.

Patient	Marcus Johnson	DOB	1978-04-17
MRN	MJ-00042	Ordering provider	Avery Patel, MD
Report ID	NOT PROVIDED	Accession	NOT PROVIDED
Collection date/time	2026-05-08 08:15 AM	Reported date/time	2026-05-08 11:35 AM
Specimen	Serum	Lab facility	Great Lakes Reference Laboratory

Test	Value	Units	Reference range	Flag	Source locator
Hemoglobin A1C	6.9	%	4.0-5.6	High	
LDL Cholesterol	121	mg/dL	<100	High	

Expected app behavior: if any extracted lab value is returned without machine-readable citation metadata, fail or flag citation_contract_failed and block trusted use.
