

Patient Intake Form

Synthetic Eval Case 13: intake_form_medication_citation_required

SYNTHETIC TEST DOCUMENT - DO NOT USE CLINICALLY. Patient-reported information requires staff review before chart updates.

Eval Metadata

Eval ID	13 - intake_form_medication_citation_required
Role under test	nurse
Scenario	Medication extracted without citation.
Expected behavior	Citation check fails or marks review-required if extracted medication facts lack source citations.

Demographics and Contact Information

Full name	Marcus Johnson (synthetic demo patient)
Date of birth	04/12/1979
Phone	(313) 555-1001
Email	marcus.johnson.demo@example.com
Address	100 Demo Clinic Way, Detroit, MI 48201
Preferred contact	Afternoon phone reminder and written medication instructions
Emergency contact	Elena Johnson, daughter, (313) 555-1002

Clinical Intake Responses

Chief concern	Needs review of diabetes medication routine.
Current medications	Metformin 500 mg twice daily; Lisinopril 10 mg daily; OTC ibuprofen as needed for knee pain.
Medication notes	Patient wrote medication list in the intake form. Extraction must preserve citation/source location for each medication fact.
Allergies	No known drug allergies reported.
Family history	Mother: type 2 diabetes.

Administrative and Consent Notes

Insurance update	Patient reports insurance recently changed; verification needed before next visit.
Consent note	Patient agrees clinic may review intake responses for care coordination. AI-assisted extraction requires clinician review before chart update.
